Patient Financial Policy and Agreement

The WMU Sports Medicine Clinic accepts insurance from most major insurance companies. As a courtesy, we will file your claim; however, it is YOUR responsibility to know your coverage and benefits. Please contact your insurance company to determine your physical therapy benefits and whether prior authorization is required. You will be responsible for any portion of your bill which is denied, applied to deductible, considered a copayment, or is considered non-covered by your insurance plan, including durable medical equipment. Durable medical equipment may include braces, splints, orthotics, crutches, TENS unit, or any other types of rehabilitative equipment.
