Take control of your health

Take the Blue Cross® Health & Wellness online health assessment

Take the Blue Cross Health & Wellness health assessment, powered by WebMD®, to get a picture of your current health and your health risks. In an easy-to-read, interactive format, the health assessment asks you questions designed to evaluate your health. In addition:

- **It's fast.** Mobile-friendly and interactive, it takes about 10 minutes to complete.
- **It's effective.** It asks a variety of basic questions about your diet, exercise, sleep, medical history and lifestyle factors to give you a holistic view of your current health and a personalized plan for better health.
- **It's personal.** After you complete your health assessment, you'll receive everything you need to help you improve your health:
 - A health score based on an analysis of your modifiable health risks
 - A list of your highest-risk areas
 - A *Modifiable Risk Report* and a *Condition Risk Report*
 - A list of the next steps you can take to improve your health
- **It gives you information you can use.** After taking the health assessment and getting your results, use Blue Cross Health & Wellness online resources to help you with whatever is on your plan — from exercise and diet trackers to Digital Health AssistantSM programs, it all starts here.

You can also see how your health score compares to others who have completed the WebMD health assessment.

Before you start, gather this information:

- Blood pressure
- Total cholesterol
- High-density lipoprotein, HDL, cholesterol
- Low-density lipoprotein, LDL, cholesterol
- Triglycerides
- Blood sugar
- Height, weight and waist measurements
- Recent health screenings

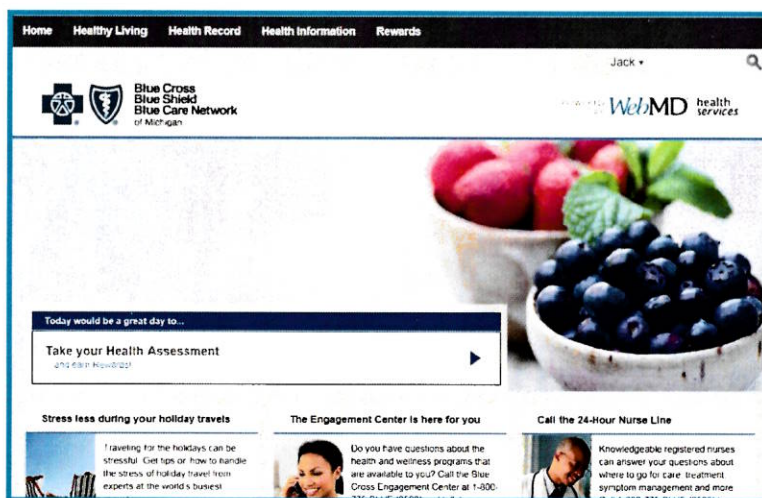

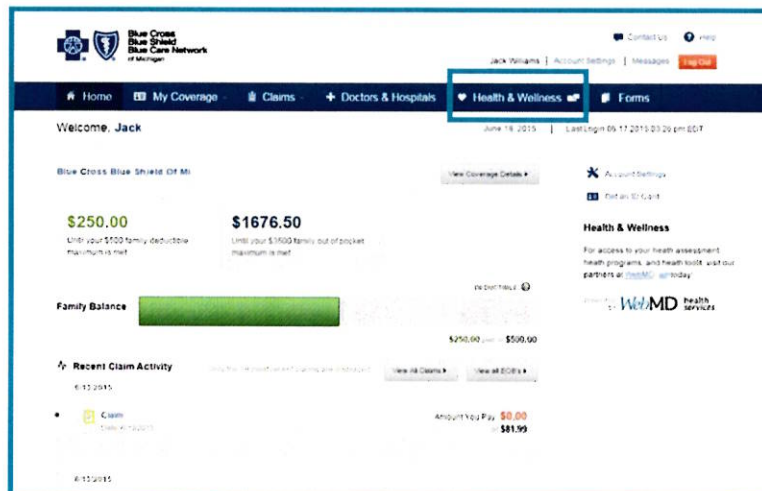

If you don't have this information, you can still take your health assessment. But having this information will provide you with more in-depth results.

Confidence comes with every card.®

It's easy to take the online health assessment

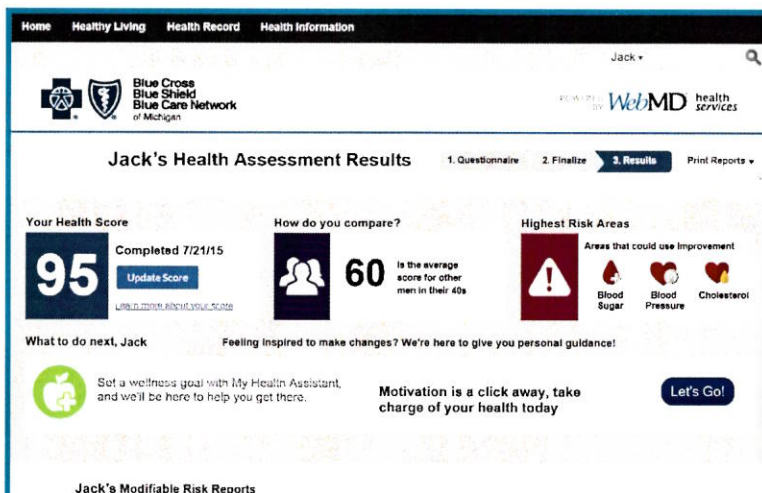

1. Log in to **bcbsm.com** as a member.
