

GEOS 1050: Dinosaurs

The WMU Geosciences Department is pleased to offer a new Area VII course focused on Dinosaurs.

Topics covered:

- What is a dinosaur?
- An overview of the different groups of dinosaurs
- Who did the Dinosaurs share the world with and what kind of environments did dinosaurs live in?
- How did dinosaurs behave? – what evidence do we have for interactions between dinosaurs.
- Are Birds really dinosaurs?
- Dinosaurs in Popular Culture.
