Travel to two regions of India and transform your understanding of sustainability and social justice abroad and at home.

Interested in learning about business and health and human services in a truly interprofessional course in India? India is an emerging and vibrant economy which recently enacted a Corporate Social Responsibility statute requiring businesses to dedicate 2% of profits to sustainable social justice initiatives. See how this plays out in partnerships with universities, companies, and non-governmental organizations. Discover the wonders of sustainability in India through work alongside schools, nutrition programs, and youth empowerment programs. Available as an elective, and IPE 3050 for Area IV gen. educ. cred.
