Do you want to learn more about cognitive communication disorders in aging populations?

Together with Psi Iota Xi and the WMU College of Health and Human Services, we are pleased to announce the

2019 Van Riper Lecture
Friday, October 25
8 a.m. to 4:45 p.m.
Western Michigan University Fetzer Center

The distinguished keynote speaker, Dr. Nidhi Mahendra, will address evidence-based practices for adults with mild cognitive impairment (MCI) and dementia, with a consideration of multicultural issues. A panel of experts will identify the unique roles and responsibilities of interprofessional collaborative practice as it relates to patient-centered care for this clinical population.

Presentations include:

• Nidhi Mahendra, Ph.D., San Jose State University
  The Aging to Dementia Continuum: Critical Roles for Speech-Language Pathologists and Audiologists

• Interprofessional Panel Discussion
  Transdisciplinary Approaches to Support Individuals with Cognitive Communication Disorders

Questions: Contact Carole Miller at carole.miller@wmich.edu or (269) 387-8045.

An estimated total of .55 ASHA CEUs can be earned by attending the conference.
